ABOUT OUR COMPANY

A BRIEF STORY

OLIVE ELEVATORS is one of the world's leading quality assured elevators company based in India established in the year 2019 created to provide elegant design, engineering and fabrication solutions for your elevator needs. OLIVE ELEVATORS was established with a vision to offer world class Range of Passenger lifts, Home Lift, Car Lift, Scissor Lift, Goods Lift, Industrial Lift all over India. We are presently working in 3 respective states i.e., Himachal Pradesh, Punjab & Haryana we have AMC of 100 plus lifts at present we also deal in modifications of lifts as well as dealing in annual maintenance of multiple brands OLIVE ELEVATORS strives to deliver the best in safety, quality and reliability, a team that works on the lines of professional design, research, manufacturing, installing and maintenance of elevators.

Our Team:

Our team at OLIVE ELEVATORS forms the core strength of our organization. Our Team consists of highly skilled, qualified and experienced members within the lift industry, to ensure best service and customer satisfaction. Our team comprises procurement specialists, engineers, laborers, quality analysts and packaging professionals and sales & marketing personnel.

Quality Assurance :

We have always stood for impeccable quality products in the industry. Our organization is equipped with all the necessary requirements to assure matchless quality to our clients. At every stage they check if the processes abide by the quality requirements, and further they also test the range on various parameters after the final production. We have been awarded

Customer Satisfaction :

Over the years we have managed to gain client base spread across these states owing to our undivided focus on client satisfaction. The fact that 80% of our customers have used us for more than one project is a testament to that experience, know how and get it done right attitude. To attain complete client satisfaction, we ensure impeccable quality of our product range, along with customization and timely deliveries

OLIVE CABINS

ONE OF THE WORLD'S LEADING QUALITY ASSURED ELEVATORS

AUTOMATIC

PASSENGER ELEVATORS INSTALLATION

The company is recognized for manufacturing and installing world class Automatic Passenger Lifts in public buildings handling. Our Automatic Passenger Lifts have a higher demand amongst clients, as these are easy to maintain. Though these lifts require more space in the building than manual doors, it is advisable to use automatic doors. There is no need for a lift operator in our Automatic Passenger Lifts. The door panels can be designed to add décor to the building. These lifts are available in different capacities ranging from 4 persons to 40 persons. The speed of travel ranges from single speed of 0.7m/s to variable speeds of 1.5m/s.

The cabin walls and door panels can be of S.S./M.S. painted, M.S. powder coated or hairline brush finished stainless steel. Glass Doors are also provided on special demand because these are expensive. Normally Center Opening Doors are advised due to their ease of use and elegance. Telescopic Doors can also be provided in which both the doors are opened towards one side. Our lifts use Programmable Logic Controllers with auto fault display and detection capability. Modern amenities like variable speeds through ACVVVF Drives, Automatic Rescue Device for electricity failure, Load Weighing Devices for large lifts etc. are offered at additional cost.
